## PERFORMANCE YOU CAN TRUST

Product Catalogue 2023

**UK EDITION**

# We make **better** products in a **better** way.

- » We select materials and processes that are more sustainable, and manufacturing that has less impact.
- » Our products are designed to be more efficient, reducing energy use and carbon impact.
- » We make products that are reliable, serviceable and built to last.

Our customers face complex and demanding challenges. Raising cleaning and hygiene standards for all, delivering increased productivity and significant contributions toward the urgent sustainability agenda, all pressing demands to the cleaning industry. Fulfilling today's demands and overcoming complex challenges requires professional cleaning solutions that deliver **Performance You Can Trust.**

We continue to focus on truly understanding our customers' needs to better design and manufacture sustainable cleaning solutions that deliver on performance and reliability. At the centre of all Numatic product development and manufacturing are three core values: Innovation, Quality and Price. These values help us to increase productivity, cleaning standards and meet the demands of all industries, across the globe.

## Building on Sustainability

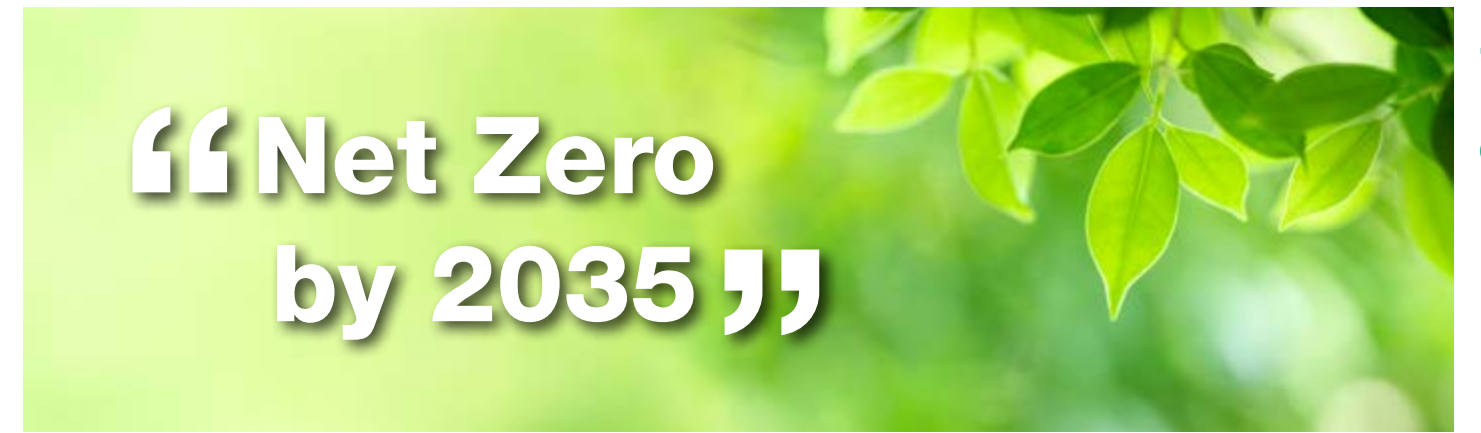

The Numatic Sustainability Formula is the foundation to all our product development and sustainable initiatives.

### Integrated Sustainability

A sustainable approach is integrated throughout all of our operations, from design to manufacturing, to distribution and when in use. Our teams always strive to innovate and introduce even more sustainable manufacturing practices at our 42 acre site in Somerset, United Kingdom.

 Extensive Solar Investment	 Resource-Efficient Technologies	 Zero Waste to Landfill	 No Diesel Fleet by 2023	 Sustainable Product Lifecycle	 LED Lighting
--------------------------------	-------------------------------------	----------------------------	-----------------------------	-----------------------------------	------------------

	Reduce Plastic Packaging by <b>30%</b> 30% reduction in plastic packaging use (avg. KGs per unit) by end of 2022 and further 30% by end of 2023.	<b>2023</b>
	Reduce Gas & Electric by <b>10%</b> Reduce CCA (Climate Change Agreement) Measured Electricity & Gas usage by 10%, under agreed CCA targets, by end of 2023.	<b>2023</b>
	Increase Manufacturing Efficiency by <b>15%</b> Increase manufacturing efficiencies by 15% by end of 2023.	<b>2023</b>
	Reduce Energy Use by <b>20%</b> Lower energy use across the factory by 20% by end of 2024.	<b>2024</b>
	Increase Use of Recycled Plastic by <b>50%</b> Increase use of recycled plastic in our 11" and 12" vacuum cleaners by 50% by end of 2025.	<b>2025</b>

We support the following Sustainable Development Goals (SDGs) of the United Nations:

 3 GOOD HEALTH AND WELL-BEING	 5 GENDER EQUALITY	 6 CLEAN WATER AND SANITATION	 9 INDUSTRY, INNOVATION AND INFRASTRUCTURE	 10 REDUCED INEQUALITIES	 11 SUSTAINABLE CITIES AND COMMUNITIES	 12 RESPONSIBLE CONSUMPTION AND PRODUCTION	 13 CLIMATE ACTION
----------------------------------	-----------------------	----------------------------------	---	-----------------------------	---	---	-----------------------

## Sustainability in Action

Achieving ambitious sustainability targets requires innovation, action and transparency. These initiatives move us forward in reaching our goals and leading the way in providing sustainable cleaning solutions for our customers.

### ReFlo Technology

Many of our products are engineered from our innovative, environmentally sustainable ReFlo Technology. We use the highest quality, recycled, post-industrial plastics, which are diverted from landfill.

### The Bigger Picture

We've partnered with **charity: water** to provide water to communities and projects that need it the most. Through every purchase of a 244NX, we donate the equivalent of 5000L of water. **(See pages 8-9)**

### Not Just Any Offsetting

We've been reducing our carbon footprint and offsetting global bag sales since 2020. We've partnered with a leading company in carbon offsetting innovation, C Level. **Visit: [numatic.com/sustainability](https://numatic.com/sustainability)**

## ReFlo Technology

We continually review, refine and adapt our manufacturing processes to deliver even greater levels of sustainability throughout our product ranges.

Following extensive research and testing, we have introduced ReFlo Technology to our VersaCare and CleanCare ranges. Our teams are working hard to expand the use of sustainable materials across the Numatic product range, wherever possible.

Our ReFlo produced Janitorial Range of products carry the globally recognised SCS Recycled Content Certification. Working with an independent auditing body provides complete transparency and assurance to our customers. All our products certified by SCS Global Services guarantee a minimum of 50% recycled material is used.

WORKING IN PARTNERSHIP WITH:

For every purchase of a 244NX, Numatic will fund the equivalent of 5000L of water to projects around the world.

Sustainable and responsible usage of clean water is critical to reducing waste and energy. The 244NX optimises the use of clean water, leaving floors clean, dry, safe and hygienic. Switching from conventional mopping to the 244NX can save users 5000L of water per year.\*

We believe no person should be without clean, safe, running water.

That's why, in partnership with charity: water we are committed to helping run multiple projects a year to ensure those who need water the most, have access to it.

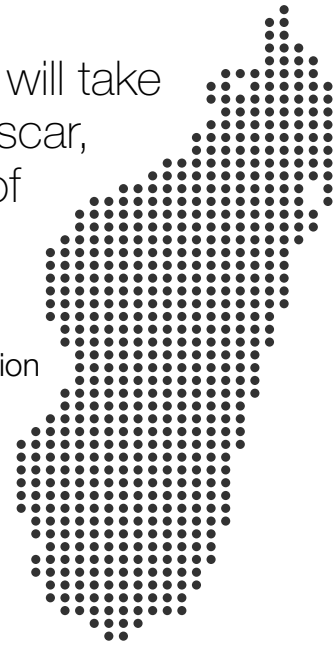

To do this, we pledge that for every purchase of a 244NX, we will fund 5000L of water to communities that need it.

“ Every **244NX** funds **5000L** of water to communities that need it. ”

Our initial project will take place in Madagascar, receiving 100% of the donations.

**58%** of the population currently lack safe drinking water.

Since 2021, we have donated **61.5 Million** Litres of Water to Projects Around the World.

“ Our projects will make a real difference to communities. We'll keep all of our customers up to date with details, progress and completion of each project. ”

**785 million people** live without clean water  
**THAT'S ABOUT 1 IN 10 OF US**

## CONFIGURABLE CLEANING SYSTEMS

“ Finding a janitorial system that fits your needs completely can be a real challenge. ”

### Individual Environments Demand Individual Cleaning Solutions

Finding a janitorial system that fits your needs completely can be a real challenge. Giving total freedom of choice to the user, Nu-Design offers the ultimate solution.

Nu-Design guides you through the product configuration process, providing a visual output and configuration breakdown at each selection. The result; a reliable, functional and innovative cleaning system that fits your needs precisely.

Poor selection and configuration lowers cleaning standards and productivity.

#### How it Works

1. Select your trolley base and castor options
2. Pick storage options that meet your needs exactly
3. Choose your mopping system, waste options, accessories and personalisation
4. Submit for an itemised breakdown and quote

## Intelligent Fleet Management Telemetry, lowering costs and increasing productivity.

- Asset Management**  
 Understand how, when and where your cleaning fleet is operating. Each asset automatically uploads status, location and usage reports to the portal.
- Maximise Return**  
 Deploy machines effectively, based on environment, use and hours worked. Insights allow fleet managers to deploy newer assets to the most demanding environments and critical locations.
- Intelligent Insights**  
 Cleaning fleet data allows informed decision making for increased cleaning and productivity standards. Assured security and privacy using global cloud hosting means your data is secure and backed up using the latest hosting technology.
- Maximum Operating Reliability**  
 Manage and track servicing requirements to keep your cleaning fleet running smoothly, extending machine life and eliminate costly downtime.
- Security & Prevention**  
 Prevent unauthorised use beyond specified working environment using WiFi Technology. If a machine is moved beyond the Geo-Fence, an alert will be sent.

# A New Generation of Cleaning Power

**FAST CHARGE**

**LONG-LIFE**

**FLEXIBLE POWER**

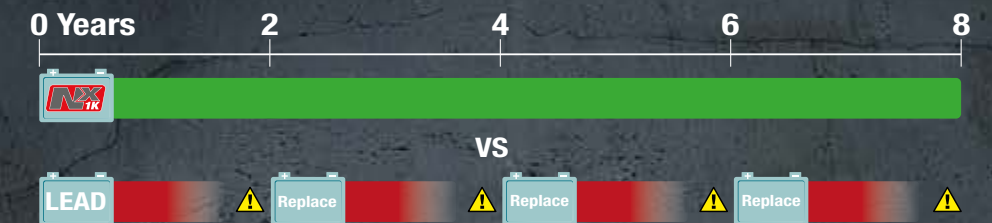

NX1K brings the latest Lithium technology to the Numatic FloorCare Range, delivering more runtime with faster, flexible charging and long-life power with the same professional results and reliability.

Utilising the latest Lithium Phosphate Technology and delivering over 4000 charge cycles, NX1K is one of the safest batteries platforms on the market. A 3-year\* battery warranty provides complete peace of mind for you and your cleaning fleet.

\*3-Year Warranty subject to terms and market availability, please contact Numatic for more information.

4X LONGER LASTING THAN LEAD BATTERIES

# 4x Longer Lasting than Lead Batteries

## Runs Longer

Configurable performance that suits you, offering increased runtime of up to 44%\*. Ensuring you can keep cleaning when it is most convenient for you.

## More Sustainable

NX1K lasts longer than lead alternatives, significantly reducing material use and disposal, providing a much more sustainable solution.

## Fast & Flexible Charging

Unlike Lead, NX1K Fast Charge Technology allows completely flexible charging, allowing you to use your machine whenever you need to, no matter how much it's charged.

NX1K Fast Charge Technology drives productivity, providing you an increase in machine availability in comparison to Lead.

## Extended Long Life Power

Delivering over 4000 charge cycles, NX1K will last as long as your machine. Utilising the latest Lithium Phosphate Technology, NX1K is one of the safest battery platforms on the market. A 3-year battery warranty provides complete peace of mind for you and your cleaning fleet.†

## Nu-Track Insights‡

Built-in with our intelligent fleet management telemetry system, Nu-Track provides in-depth insights, lowering costs and increasing productivity across your fleet.

NEW

## Saves you Money

Investing in Lithium, compared to routinely replacing lead batteries and associated service costs, provides a positive return on investment across the NX1K range, therefore saving you money.
