SmartColor Cleaning System

The Future of Cleaning... Now in Color

![UNGER - Quality Tools for Smart Cleaning]

SMARTCOLOR

VISUALIZE THE DIFFERENCE COLOR CAN MAKE

SmartColor Cleaning System combines Unger's superior cleaning technology with the productivity and sanitation benefits of visual coding. For the first time, our ergonomic cleaning products are available with color-coded enhancements that help your employees easily organize both their equipment and their workday. The results are improved performance, better sanitation and cleaner facilities.

ADVANTAGES OF SMARTCOLOR

IMPROVES TRAINING AND COMMUNICATION
SmartColor is an intuitive visual coding system, removing language and literacy barriers when training a diverse workforce in proper cleaning processes. Color-coding also provides supervisors with quick visual indicators for monitoring employee activity to prevent tool or chemical misuse.

PREVENTS CROSS-CONTAMINATION
Distinct color-coding makes it easy to separate tools into their correct areas of use or cleaning task. Restroom tools are kept in the restroom, kitchen tools are kept in the kitchen – reducing bacteria cross-contamination between high and low-risk areas. Proper use creates a healthier, more sanitary environment that benefits employees, occupants and visitors.

ENHANCES BUILDING SAFETY
Color-coding reduces the risk of accidents arising from the misuse of tools or chemicals in the wrong area. For instance, by preventing the use of greasy kitchen mops on entryway floors, SmartColor can lower the incidence of potentially expensive "slip and fall" accidents.

CLEANING SYSTEM

DETERS CHEMICAL MISUSE
SmartColor reduces the transfer of harmful substances by isolating potentially hazardous cleaning chemicals into their appropriate areas. For example, mopping solutions can be coded for a specific floor to avoid the use of caustic chemicals that may permanently damage the surface.

SIMPLIFIES SUPPLY MANAGEMENT
By keeping cleaning tools in their proper areas, SmartColor allows custodial departments to keep better track of their equipment and supplies. Productivity increases when employees no longer have to search for misplaced tools or proper cleaning equipment.

PRESERVES FACILITY ASSETS
SmartColor protects valuable assets by reducing the risk of using improper chemicals or applications on floors and other surfaces. Floor-finishing supplies can be color-coded to eliminate confusion with floor-stripping supplies to preserve the appearance of high-priced specialty flooring.

ELEVATES EMPLOYEE PERFORMANCE
SmartColor enhances the professional appearance of employees and increases their efficiency by making it easy to organize the cleaning process. Ergonomic tool design also reduces fatigue and injury to boost productivity.

Quality Tools for Smart Cleaning™
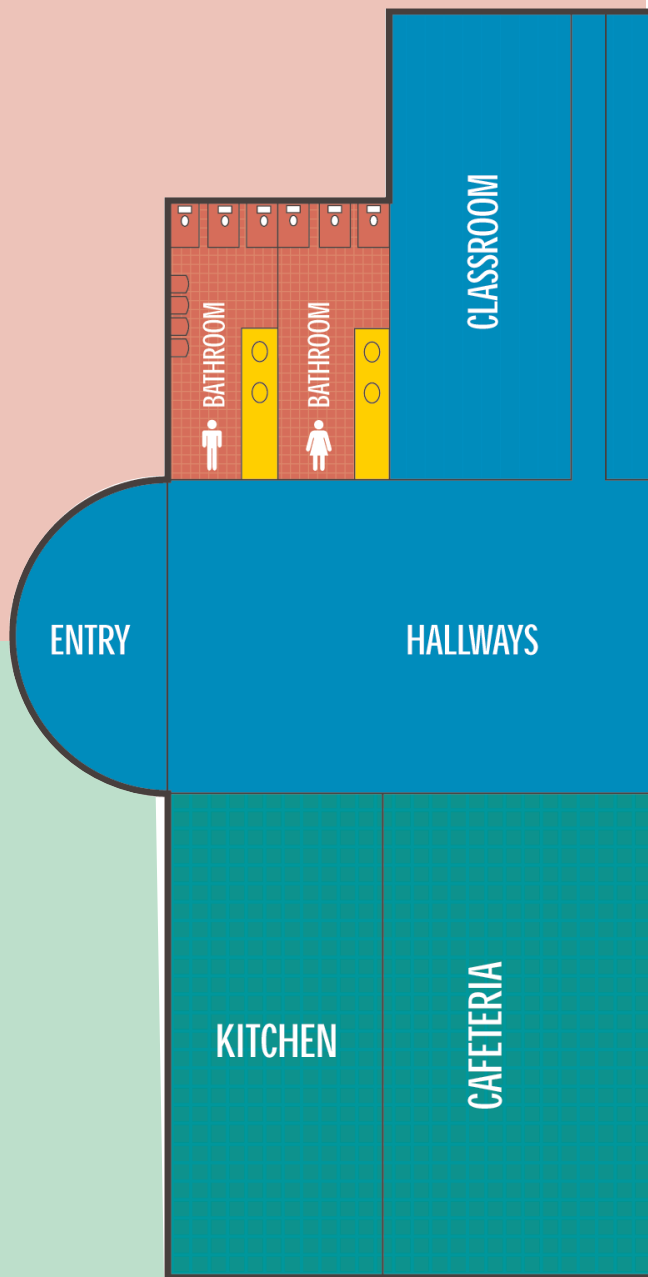

SmartColor Coding Example
Sanitary Restroom

Use in areas of the restroom that have higher bacteria concentrations and specialized cleaning solutions, where sanitation is a priority. Particularly toilets and urinals.

Foodservice Areas

Use in areas that come into contact with food, including kitchens, cafeterias and employee break rooms. Or, use a separate color for food preparation areas for an added degree of safety.

BATHROOM BATHROOM CLASSROOM

ENTRY HALLWAYS

KITCHEN CAFETERIA

CLASSROOM	GYMNASIUM	
	LABS	
	OFFICES	

SPECIALTY CLEANING

Use for sinks and general restroom cleaning, to prevent cross-contamination from toilet and urinal areas. May also be used for specialty cleaning activities such as gymnasiums, laboratories and floor-care projects.
GENERAL/USER SPECIFIC

Use for general cleaning in offices, hallways and reception areas. Or, task a set of tools for specialized areas of your building, such as hotel rooms, classrooms, manufacturing areas or medical facilities.

SMARTCOLOR CLEANING SYSTEM

SMARTCOLORBUCKET
Two separate, 4 gallon compartments keep clean solution and dirty rinse water separate. Highly visible fill marks on divider; locking drain spout empties directly into floor drain without lifting.
Non-marring wheels are removable for stability or placement on cleaning carts. Neutral gray with SmartColor Decal Kit.

SMARTCOLORPRESS
Side Press Mechanism for maximum rinse of any SmartColor or conventional wet mops. Fits into rinse water compartment with positive locking mechanism to prevent press "pull out". Front-mounted pole holder for easy storage of mops. Neutral gray with SmartColor Decal Kit.
SMARTCOLORCOMBO
Includes SmartColorBucket and SmartColorPress, both made of high-impact polypropylene. Taller than conventional systems for less bending. Neutral gray with SmartColor Decal Kit.

SMARTCOLORSIDEBUCKET
The ideal way to store and keep additional tools at hand when cart is not available. Easy installation, snaps on SmartColorBucket or SmartColorCombo. Includes one side bucket and one fitting bracket.

SMARTCOLOR MOPHOLDER
Pivoting, low-profile head is easy to maneuver and reduces bending and reaching to prevent lower back injuries. Combine with SmartColorCombo to reduce total cleaning time by 10%. Large 16" surface provides more direct cleaning contact and more scrubbing pressure for superior hygienic results. Collapses easily with the touch of foot pedal to rinse or change mop head. Neutral gray with SmartColor Decal Kit.

SMARTCOLOR TELEPOLE 250
Extends cleaning reach, adjusts to individual worker to prevent strain and injury. Two-section extension pole extends from 48"/120cm to 96"/250cm. Strong and lightweight, made of anodized extruded aluminum. Attaches to any Unger cleaning tool with snap-in Taper/Acme cone adapter. Locks and loosens with a half-turn. Neutral gray with SmartColor Decal Kit.

PRODUCT GUIDE

SmartColor MicroMop 15.0
MicroFiber aggressive cleaning edges clean with less water, less streaking and less effort. Heavy-duty 15mm pile for tile floors and grout lines. Use wet or dry to reduce bacteria by up to 96%. Absorbs 6X own weight for quick liquid pick-up and retention. Long-lasting and durable, good for over 500 machine washings and dryings.

SmartColor MicroMop 7.0
MicroFiber material in 7mm pile for medium-duty use. Shorter fibers have less drag and are ideal for vinyl and other sealed floors without grout lines. Reduces bacteria by 96%, absorbs 6X own weight, machine wash and dry 500 times.
SmartColor MicroWipe
MicroFiber cleaning cloth with aggressive cleaning edges for wet or dry cleaning with less water, less streaking and less effort. Tiny fibers penetrate small, irregular surfaces to pull out dirt. Extremely durable, can be washed and reused over 500 times.

SprayerOnABelt
Combine with SmartColor MicroWipe to make wet cleaning strain-free, fast and efficient. Sprayer hooks to belt to transfer weight away from back and arms. Flexible hose allows trigger to extend 3' and spray solution closer to cleaning surface without bending or reaching. Spray right or left handed, even upside down. 33oz. high-density plastic bottle can be replaced with any standard 33oz. bottle with Acme thread. Neutral gray with SmartColor Decal Kit.

SmartColor Washer 7.0 Complete
14" MicroFiber washer with durable t-bar handle for wet or dry cleaning of walls and large flat surfaces, white boards, chalk boards, desk and counters, or stainless steel. Cleans better because tiny fibers penetrate irregular surfaces to pull out dirt. Patented water wells in body of washer retain and release water with scrubbing movement.

DIFFERENT NEEDS
ONE FLEXIBLE SOLUTION

Every facility is unique, which is why Unger SmartColor is the first visual coding system designed to adapt to the specific, and changing, needs of your business. As your building's footprint grows or personnel needs fluctuate, SmartColor will keep your business ahead of all its cleaning demands.

SmartColor achieves its distinct color-coding through interchangeable features and durable metallic decals. This gives you the flexibility to easily retask tools for different areas or functions as required. Unlike other systems, SmartColor does not force you to purchase expensive new equipment every time you need to change color-coding schemes or transfer tools to new areas.

BUILD YOUR OWN COLOR-CODING SYSTEM

YOUR UNGER REPRESENTATIVE WILL BE HAPPY TO CUSTOMIZE SMARTCOLOR FOR YOUR FACILITY.

PROJECT
Separate tools into daily tasks, detail activities and larger periodic projects.

CHEMICAL
Coordinate chemical colors to tools and color-keyed Material Safety Data Sheets to prevent the transfer of harmful substances.

SPECIALIST
Give cleaning specialists their own set of color-coded tools for their designated routes or specialist job cards.

FREQUENCY
Organize tools by daily, weekly and monthly activities.
