12V Handheld Mist Sprayer

A handheld and battery-powered mist sprayer, which is designed for sanitising small to medium areas.

With a generous 5l capacity, the sprayer projects a fine mist of droplets 50µm in size over 1.5m in distance, and at a rate of around 145ml per minute.

It is powered by a 12v rechargeable lithium battery, and has an operating time of approximately 45 minutes, while taking an hour to fully recharge. It is recommended to charge fully once every three months if it has not been used for a long time.

It can be used in airports, to clean public transport, hotels, supermarkets, hospitals, childrens parks, bars & restaurants and cinemas.

The unloaded weight is 1.4kg, and 7kg filled to capacity.

Key features & benefits

Easy clean

Rechargeable battery

5L capacity

CE approved

- Designed for sanitising small to medium areas.
- Cordless and handheld for quick and easy cleaning.
- 5L capacity with 45 min operating time.
- 12v rechargeable lithium battery.

Precautions

Make sure that the solution is clean and free of impurities. If the amount of mist reduces, unscrew the nozzle to clean. After the container is filled it may take up to 30 seconds for the solution to reach the spray head once switched on.
