

Very compact and light-weight (11 kg) scrubber dryer. An innovative and efficient alternative to manual cleaning of hard floors from 20 to 200 m². The floor is immediately dry after cleaning. It prevents slipping. Perfect for cleaning small shops, restaurants, gas stations, supermarkets, sanitary areas, for hotels or snack-bars. Also usable additionally to bigger scrubber driers for special tasks.

Standard accessories:

- Roller brush
- 2-tank system
- Mains operation
- Transport wheels
- 2 squeegees, straight

Order no.: 1.783-220.0

**Technical data**

Brush working width (mm)	300
Vacuum working width (mm)	300
Power rating (W)	820
Battery capacity	-
Battery voltage	-
Fresh/waste water tank (l)	4/4
Brush contact pressure g/cm ²	100
Brush speed rpm	1450
Max. area performance (m ² /h)	200
Frequency (Hz)	50-60
Voltage V	230
Weight (kg)	11.5
Dimensions (L x W x H) (mm)	390x335x1180

Details

Description

Due to the upright design, the machine is manouvrable like an upright-vacuum. Compared to a mop it has much more cleaning effort due to 10-times more contact pressure to the floor. This with a brush which spins with 1500 rpm.

The machine is drying forward and backwards.

For very sticky dirt, the squeegees can be lifted up by a foot pedal. The chemical can react more time. Cleaning is also possible under furitures or other objects due to the very low brush head.

Features & Benefits

High-speed roller brush

Ten times higher contact pressure than manual cleaning.

The roller brush also cleans structured surfaces and joints.

The roller creates an automatic forwards motion, meaning that the device does not need to be pushed.

Immediately dry

The soft suction lips soak up any water from the floor – either forwards or backwards.

For intensive cleaning, the suction can also be deactivated using the foot pedal.

The floor can be walked on again immediately.

Vacuum off facility

The suction can be deactivated using the foot pedal.

For a thorough cleaning, the cleaning fleet can be spread out first, and then suctioned off separately.

Tanks are removable

The tanks can be removed separately or together. Includes a handle for easy transport.

The wastewater tank can be removed separately and can be emptied into the sink, for example.

The handy fresh water tank can be removed separately and can also be filled in small sinks.

Accessories

Carpet Kits

Carpet cleaning kit

Order no. 2.783-005.0

Microfibre shaft

Microfibre roller

World first: Microfibre roller, length 300 mm. Combines the excellent cleaning power of microfibres with the advantages of roller technology. Ideal for cleaning fine stoneware tiles.

Order no. 4.762-453.0
